ECP – MAINTENANCE PRODUCTS

ECP stocks the most popular 'general purpose' grade of brush seaters & comm stones - 'MS' (Medium Soft). Other grades are available;

- **ES** (Extra Soft) Used for cleaning and seating brushes on all types of sliprings
- **FS** (Fine Soft) Similar to MS but with a finer grit abrasive
- **MH** (Med. Hard) Similar to MS but harder. Developed for use on undercut commutators where softer grades might wear too quickly
- **FH** (Fine Hard) Recommended for small motor applications such as vacuum cleaners, fans and auto alternators alike
